

Patient Appointment Checklist

- Online Portal proficiency (we will be happy to help you set this up, just ask)
- Physical Exam & Ultrasound Doppler (usually done on Day 2-3-4 of menstrual cycle)
- Portal Input on Cycle Day 1 - every month until you are pregnant, don't forget! (simply contact us via the Portal on the first sign of your period... log in and send message, this will help us with testing timing and absolutely help with treatment timing – do NOT forget, it may delay treatments by 6 weeks!)
- Schedule Uterine/Tubal Testing on Cycle Day 7-11, or get on birth control pills so the timing is less important
- Semen Analysis & Lab (for men) – men 3 to 5 days of abstinence and keep hydrated! We have kits so that you can collect at home, but you MUST have appointment to drop off sperm or get sperm collected in the office – we only allow one sperm sample in lab per hour so MAKE appointment!
- Treatment Consultation – this is where you find out about YOUR results, YOUR options, YOUR chances to achieve One Healthy Baby™

Contact Information:

- Use the Portal for all non-urgent questions. We have Magarelli Fertility Solutions center staff available by phone
- Office hours are 6:30 am – 3:30 pm Monday – Friday (Sat. by appointment only), but you may get clinic appointments as early as 6 am!! 719-475-2229 or 877-475-2229
